Welcome to Lena Tarim

Established: 2001
Location: Ankara Turkiye
Specializations:
Pesticides, Plant Nutrients, Biostimulants, Plant Growth Regulators, Fertilizers

At LENA TARIM, our mission is to advance Turkish agriculture through premium products and cutting-edge technology. Since our founding in 2001, we have specialized in delivering over 80 high-quality products, including:

- **Plant Protection Products**
- **Fertilizers**
- **Plant Nutrients**
- **Plant Growth Regulators**
- **Pesticides**
- **Biostimulants**

Our state-of-the-art production facility, spanning 6,000 m² in Ankara, is designed with the latest technology and operates under stringent environmental regulations. We have all necessary permissions and approvals from the Ministry of Agriculture, including Environmental Impact Assessments (EIA) and Emission reports.

OUR VALUES:

Excellence: We are dedicated to achieving the highest standards in all our operations.
Farmer-Centric Approach: Our efforts are focused on enhancing efficiency and effectiveness for farmers.
Domestic Investment: Fully funded by domestic capital, we strive to establish a leading market position through reliability and customer satisfaction.
Ethical Practices: We maintain high ethical standards and promote a culture of collective success.
Sustainability: Our practices are designed to be both sustainable and competitive.
Employee Wellbeing: We are committed to provide a supportive and inclusive workplace environment.
Continuous Improvement: We are dedicated to continuously enhancing our processes to exceed customer expectations.
Environmental Stewardship: We are committed to protecting and improving environment.
Health and Safety: We exceed industry standards for occupational health and safety, ensuring a safe and healthy environment for all.
Thank you for choosing LENA TARIM. We are committed to serving your agricultural needs with the highest standards of excellence and integrity.

QUALITY PRODUCT WITH KNOWLEDGE AND TECHNOLOGY

LENA GIBB

GIBBERELLIC ACID

PACKING: 50mL - 0,5L - 1L - 5L - 20L

ACTIVE SUBSTANCE (PER LITER)	
PURE GIBBERELLIC ACID (GA3)	20 g

LENA GI BB is a plant growth regulator that contains Gibberellic Acid in a liquid formulation. I t improves the physiological and morphological properties of plants, even when used in very small quantities, by penetrating into the plant's interior. LENA GIBB promotes rooting and enhances seed germination, leading to high-quality yields. It strengthens plants by increasing their resistance to cold, diseases, and pests, enhances fecundity, reduces fruit bloom loss, accelerates ripening, and extends the fruit preservation period.

LENA TONIK

SODIUM SALTS

PACKING: 100mL - 250mL - 0,5L - 1L - 5L - 20L

ACTIVE SUBSTANCE (PER LITER)	
SODIUM 5 NITROGUAIACHOLATE	1 g
SODIUM ORTHO-NITROPHENOLATE	2 g
SODIUM PARA-NITROPHENOLATE	3 g

LENA TONIK is a plant growth regulator containing three aromatic nitro compounds that can be used throughout the entire lifecycle of a plant, from seed to harvest, to achieve better and higher quality yields. It positively influences germination, rooting, growth, and maturation by providing vital energy to all plant cells. LENA TONI K is especially effective in enhancing fertilization, as it is easily absorbed by the plant. It accelerates cellular activity, water and mineral uptake, and helps plants efficiently access nutrients, promoting overall health and productivity.

LENACINE

SODIUM SALTS + NAA

PACKING: 250mL - 0,5L - 1L - 5L

ACTIVE SUBSTANCE (PER LITER)	
SODIUM 5-NITROGUAIACOLATE	1 g
SODIUM ORTHO-NITROPHENOLATE	2 g
SODIUM PARA-NITROPHENOLATE	3 g
SODIUM NAPHTALINE ACETATE (NAA)	25 g

LENACI NE: Promotes cell growth, differentiation, and root development, leading to healthier and faster plant growth. It improves floral and fruit setting, resulting in better yields and more uniform, high-quality products.

LENABOOM

% 1.85 GA4/A7+% 1.88 6 BA

PACKING: 500mL

ACTIVE SUBSTANCE (PER LITER)	
6-BENZYLADENINE	18,8 g/L
GIBBERELLIN A4/A7	18,5 g/L

LENA BOOM is a plant growth regulator specifically designed for apple besides pear trees. It helps maintain chlorophyll levels in the plant, preventing declines in nucleic acid and protein levels, and facilitates the migration of growth regulators to the cells. LENA BOOM keeps the plant green and delays aging. I t promotes budding and branch development, enhancing fruit set in all apple and pear varieties. Additionally, it improves fruit appearance by increasing fruit size, weight, and count.

LENA DASH

% 1,18 NAD + % 0,43 NAA

PACKING: 60g - 120g - 250g

ACTIVE SUBSTANCE	%W/W
1-NAPHTYLACETIC ACID (NAA)	% 0,43
2-(NAPHTYL) ACETAMIDE (NAD)	% 1,18

LENA FRUI T: A growth regulator containing NAA and NAD that enhances rooting ability, flower shape, and fruit quality. It helps plants cope with adverse environmental conditions during critical growth periods, reduces plant stress, and prevents flower and premature fruit drop. It improves circulation within the plant, supporting fertilized fruit development.

LENA KÖNİG

NAA+ IBA

PACKING: 50g - 100g - 250g

ACTIVE SUBSTANCE	%W/W
1 - NAPHTHYLACETIC ACID (NAA)	% 0,52
4-INDOLE-3-YLBUTRIC ACID (IBA)	% 0,51

LENA KÖNİG: Enhances the growth of roots, shoots, and fibrous roots, besides aids in the development of herbaceous and woody roots by overcoming ecological rooting challenges. I t accelerates cell division, growth, and chlorophyll synthesis, supports reproductive processes, and prevents fruit and flower drop. When used with LENA TONIK, it boosts yield.

FRUITFERT

PACKING: 60g - 250g

CONTENT	%W/W
NITROGEN	% 12
WATER SOLUBLE POTASSIUM K_2O	% 5

FRUITFERT: A fertlizer that enhances rooting ability, flower shape and fruit quality. It helps plants cope with adverse environmental conditions during critical growth periods, reduces plant stress, and prevents flower and premature fruit drop. It improves circulation within the plant, supporting fertilized fruit development.

ROUTEFERT

PACKING: 50g - 250g

CONTENT	%W/W
NITROGEN	% 11
WATER SOLUBLE P_2O_5	% 9

ROUTEFERT: Enhances the growth of roots, shoots, and fibrous roots, and aids in the development of herbaceous and woody roots by overcoming ecological rooting challenges. It accelerates cell division, growth, and chlorophyll synthesis, supports reproductive processes, and prevents fruit and flower drop. When used with LENA TONIK, it boosts yield.

LENAFEKS

FORCHLORFENURON

PACKING: 100mL - 250mL - 500mL

ACTIVE SUBSTANCE (PER LITER)	
FORCHLORFENURON (CPPU)	10 g/L

LENAFEKS is a plant growth regulator used primarily for:
Promoting Cell Division and Enlargement: It enhances the size and quality of fruits and vegetables by stimulating cell division and growth. Increasing Fruit Set and Yield: It improves fruit set and overall yield by boosting the growth of flowers and fruits. Inducing Seedless Fruits: It is used to produce seedless varieties of fruits like grapes and cucumbers. Improving Crop Quality: It can enhance the appearance and texture of fruits and vegetables, leading to higher market value. Controlling Plant Growth: It can regulate growth patterns to improve crop management and uniformity. Forchlorfenuron is commonly used in crops such as grapes, cucumbers, and other fruiting vegetables to achieve these effects.

LENA PLANT

COPPER OXYCHLORIDE SC

PACKING: 1L - 5L

ACTIVE SUBSTANCE (PER LITER)	
COPPER OXYCHLORIDE	700 g/L

LENA PLANT 700 SC is a fungicide containing 700 g/L of copper oxychloride, equivalent to metallic copper. It is effective against various plant diseases, including: Grapevine Downy Mildew, Grapevine Powdery Mildew, Tomato Downy Mildew, Tomato Early Leaf Spot, Leaf Scab in Apricots (Stone Fruits), Leaf Curl in Peaches Olive Anthracnose

LENA FRUITSET

% 20 METALLIC COPPER

PACKING: 200g - 800g - 10Kg

ACTIVE SUBSTANCE	%W/W
METALLIC COPPER	% 20

LENA FRUITSET: A high-quality agricultural pesticide effective against various fungal and bacterial diseases. It provides preventative protection by spraying during autumn and early spring, especially for diseases affecting fruit trees, trunks, branches, flowers, and leaves.

LENAMASTER

COPPER SULPAHE SC

PACKING: 1L - 5L

ACTIVE SUBSTANCE (PER LITER)	
COPPER SULPHATE	65,82 g/L

LENA MASTER SC is a suspension concentrate (SC) fungicide containing 65.82 g/L of copper sulfate, equivalent to metallic copper. Grapevine Downy Mildew Grapevine Powdery Mildew Tomato Downy Mildew Tomato Early Leaf Spot Leaf Scab in Apricots (Stone Fruits) Leaf Curl in Peaches Olive Anthracnose

AMINOMASTER

AMINO ACID

PACKING: 500 g - 2 Kg - 5 Kg - 10 Kg - 20 Kg

CONTENT	%W/W
TOTAL ORGANIC MATTER	% 80
FREE AMINO ACIDS	% 42

AMINOMASTER accelerates plant metabolism by increasing the chlorophyll content of the plant and increases its yield. It contains Amino acids that are simple molecules consisting of the breakdown of proteins. Plant origin helps to increase the amount of organic matter in the soil.

AMINOTAR LIQUID

PLANT SOURCED AMINO ACID

PACKING: 1L - 5L - 20L

CONTENT	%W/W
ORGANIC CARBON	% 8
FREE AMINO ACID	% 14
PLANT HORMONE MIXTURE	15 g/L
ORGANIC NITROGEN	% 2,5

AMINOTAR LIQUID (Liquid Amino Acid) supports protein synthesis in plants from seed to harvest. I t positively influences cell division and root elongation, promoting the formation of fringe roots, which enhances overall root structure. Its unique formulation stimulates plant growth, making it ideal for use in situations where growth retardation is observed. LENA AMINOTAR LIQUID is safe for use across various plants, providing vital support for robust and healthy development.

AMINOPOWER

PLANT SOURCED AMINO ACID

PACKING: 1L - 5L - 20L

CONTENT	%W/W
ORGANIC SUBSTANCE	% 24
FREE AMINOACIDS	% 8
PLANT HORMONE MIXTURE	1,4 g/L

AMINOPOWER: Aids in protein synthesis from seed to harvest, positively influences cell division and root elongation, and increases fringe root formation. I t stimulates plant growth, particularly in plants showing growth retardation, and contributes to increased organic matter in the soil.

LOCEAN
SEAWEED EXTRACT

PACKING: 400g - 2 Kg - 5 Kg - 10Kg - 20Kg

CONTENT	%W/W
ORGANIC MATTER	% 45
ALGINIC ACID	% 2
CYTOKININ GIBBERELLIN	600 PPM
WATER SOLUBLE K_2O	% 15

LOCEAN: An organic product derived from fully grown seaweed, it boosts root growth, accelerates germination, and supports healthy plant development. I t increases resistance to environmental stressors such as drought, insufficient sunlight, excess water, extreme temperatures, and supports new shoot formation and fruit setting.

AQUAMOSS
LIQUID SEAWEED EXTRACT

PACKING: 1L - 5L - 10L - 20L

CONTENT	%W/W
ORGANIC MATTER	% 14
ALGINIC ACID	% 1
PLANT HORMONE MIXTURE	17 g/L
FULVIC ACIDS	% 2,5
WATER SOLUBLE K_2O	% 3

AQUAMOSS: A liquid seaweed product containing vitamins and plant growth regulators that positively impact plant growth and development.

AMIRAL
LIQUID SEAWEED

PACKING: 1L - 5 L - 20L

CONTENTS	%W/W
ORGANIC MATTER	% 15
WATER SOLUBLE POTASSIUM OXIDE (K_2O)	% 2
ALGINIC ACID	% 0,1
EC	26 (ds /m)
PLANT HORMONE MIXTURE	3 g/L

AMI RAL (Liquid Seaweed), enriched with vitamins, plant growth regulators (PGRs), and organic seaweed, positively impacts plant growth and development. It boosts cel lular osmotic potential through algae products and BGDs, helping cells retain water. This enhances flower and fruit setting in young trees, stimulates side shoots, reduces early fruit drop, and increases overall yield.

FULVO STAR

PLANT SOURCED FULVIC ACID

PACKING: 1 Kg - 5 Kg - 10 Kg - 20 Kg

CONTENTS	%W/W
ORGANIC MATTER	% 60
TOTAL HUMIC + FULVIC ACID	% 65
FULVIC ACID	% 65
BORON AMOUNT	54 ppm
WATER SOLUBLE K_2O	% 2
WATER SOLUBLE N	% 1

High fulvic acid content of Fulvo STAR comprise plants chlorophyll production by promoting a greener color,
Fulvo STAR increases the amount of sugar in fruit and vegetable protein synthesis

FILIKA

LIQUID PLANT SOURCED FULVIC ACIDS

PACKING: 1L - 5L - 20L

CONTENTS	%W/W
TOTAL ORGANIC MATTER	% 15
TOTAL (HUMIC + FULVIC) ACIDS	% 12
AMINO ACID	% 5
PLANT HORMONE MIXTURE	12 g/L

LENA FILIKA facilitates absorption by chelating the nutrients in the soil, enhances soil fertility by promoting the increase of beneficial microorganisms in the soil and makes the soil light and permeable by changing the structure of heavy, clay or hard soils.

CHILL

ORGANIC FERTILIZER

PACKING: 1L - 5L - 20L

CONTENTS	%W/W
ORGANIC MATTER	% 44
ORGANIC CARBON	% 16
TOTAL NITROGEN (N)	% 2
WATER SOLUBLE POTASSIUM OXIDE (K_2O)	% 6

CHILL is an organic product that contains potassium, is used across all agricultural areas to improve soil and plant quality. As a natural fertilizer, it enhances soil nutrition, supports organic farming practices, and helps reduce fertilizer costs.

HUMIPOWER

POTASSIUM HUMAT

PACKING: 1Kg - 5Kg - 10Kg - 25Kg

CONTENTS	%W/W
TOTAL ORGANIC MATTER	% 60
TOTAL (HUMIC-FULVIC) ACID	% 60
WATER SOLUBLE K_2O	% 8

HUMIPOWER is a premium soil regulator that combines potassium with organic matter and humic and fulvic acids. It enhances soil health by: Improving soil structure for better root growth. I ncreasing nutrient availability and uptake. Boosting plant vitality and crop quality. Extending the shelf life of produce. Overall, humipower optimizes soil conditions, leading to healthier plants and more productive yields.

MAMMUT

ORGANIC FERTILIZER

PACKING: 1L - 5L - 20L

CONTENTS	%W/W
TOTAL HUMIK + FULVICACID	% 15
ORGANIC MATTER	% 35
WATER SOLUBLE POTASSIUM OXIDE (K_2O)	% 3
ORGANIC CARBON	% 9
TOTAL NITROGEN	% 2
WATER SOLUBLE K_2O	% 3
PLANT HORMONE MIXTURE	% 0,5

MAMMUT physically; It is an organic soil conditioner which increases the water retention and aerating properties of the roots and soil, improves the seed bed and thickens the color of the soil and enables the absorption of more solar energy.
MAMMUT increases the chemical nitrogen ratios in soil, and resolves salinity in the soil to adjust the pH balance, and the helps plant to take essential nutrients such as phosphorus, potassium, iron, zinc from soil. It provides the release of the fertilizer required in the root area.
MAMMUT accelerates plant growth, development and seed germination as it accelerates biological cell division. It supports rooting, strengthens roots and promotes fringe root formation. As it increases the thickness of cell walls in fruits it increases the quality of the product and increases the storage times and shelf life.

MASTERFER

EC FERTILIZER
IRON CHELATE-EDDHA

PACKING: 1K - 5Kg - 10Kg - 25Kg

GUARANTEED CONTENT	%W/W
WATER SOLUBLE IRON (Fe)	% 6
EDDHA CHELATED IRON	% 6

Applications can generally be made in spring, at planting time or at any time when plant growth is rapid. Applications can be in the form of sprinkling on the root area, sprinkling and mixing into the soil, sprinkling in strips on field crops and vegetables, or mixing with water and spraying on green parts with a sprayer. If mixed with water and pulverized, it may have a corrosive effect on the application tool, so the tool should be cleaned immediately after the application is completed.

ROCET 7-5-7

PACKING: 250mL - 500mL - 1L - 5L

CONTENT	%W/W
TOTAL NITROGEN (N)	% 7

FULVIC ACIDS	% 8,5
PLANT HORMONE MIXTURE	12 g/L
ACTIVATORS INSIDE	

LENA ROCET 7-5-7 facilitates the attachment of young trees to flower and fruit,and encourages the alteration of the buds. When applied in fruit and vegetable trees,bud and flower formation,fruit binding and fruit quality (sugars,proteins,vitamins, aroma substances,etc.)increases, the ratio of female and male flowers to adjust. LENA ROCET 7-5-7 prevents the fall of fruit with the plant growth regulators in its content,the crop will be bigger, plumpy,harder and colorful with high yield, high quality and market valued,storage and long shelf life.

LENA ZYME

PACKING: 1L - 5L - 20L

CONTENT	%W/W

kaiZEN foliar fertilizer designed to support healthy plant development. Its content of organic matter, free amino acids, and water-soluble minerals (magnesium, zinc, boron, and sulfur) enhances nutrient uptake, boosting yield and quality. It is especially recommended for application during budding and flowering periods.
kaiZEN Improves flowering and fruit set as a pre-flowering application.
Ideal for application to fruit crops as a post harvest application to boost levels of Zn, Mg and B in the following season

CALPOT

LENA LIFE is a liquid fertilizer containing essential zinc and nitrogen, which are vital for plant growth and development. The nitrogen in LENA LIFE is a key component of proteins in plants, promoting the growth of green parts, leaves, and flower buds. I t aids in the transformation of fertilized flowers into fruits and supports the elongation of roots. Additionally, LENA LIFE enhances leaf formation in fruit trees and prevents badge formation, contributing to healthier and more productive plants.

Potacool is a unique potassium fertilizer due to its blend of potassium citrate and potassium acetate. Specifically formulated to support the healthy and pro - ductive growth of your plants, this fertilizer ensures effective potassium uptake and enriches the nutrient content of the soil.
Efficient Potassium Uptake: Enables plants to absorb potassium quickly and effectively. pH Balance Improvement: Enhances soil pH balance and supports better nutrient absorption by plants. Root Development: Supports root growth and improves overall plant health. Rapid Action: Quickly absorbed by plants, providing immediate and effective results. Water Regulation: Regulates water balance in plants and improves fruit quality. Nutrient Enrichment: Enhances soil nutrient content and provides an optimal growth environment for plants.

COMMANDER POT

0-30-20 (POTASSIUM PHOSPHIDE)

PACKING: 1L - 5L - 20L

CONTENTS	%W/W
WATER-SOLUBLE POTASSIUM OXIDE (K_2O)	% 20

COMMANDER POT IS A HIGH QUALITY POTASSIM PHOSPHIDE WITH THE PERCENTAGE OF 0-30-20 (W/W)
Commander Pot is a systemic product that utilizes potassium phosphite to enhance flowering, fruit set, and fruit growth in plants. I t can be safely applied both through the soil and foliage. The special phosphite composition stimulates the plant's defense mechanisms and shortens internodes, leading to the development of more healthy flowers. As a result, fruit set is significantly increased. When used in conjunction with fungicides, Commander Pot also provides resistance against fungal diseases in plants.

LENA ZINC

% 12 ZINC

PACKING: 1L - 5L - 20L

CONTENTS	%W/W
WATER SOLUBLE ZINC (Zn)	% 12

LENA ZINC is an essential nutrient that promotes plant height and branch development. It prevents early yellowing, leaf drop, and stunting, ensuring healthy plant growth. By enhancing the number of shoots, reducing dwarfism, and improving fruit appearance, LENA ZI NC also prevents fruit deformation and increases fruit retention in trees. Additionally, it contributes to taller cereals and thicker stalks, supporting overall plant vigor.

LENA CALCIO

%15 CALCIUM

PACKING: 1L - 5L - 20L

CONTENTS	%W/W
TOTAL NITROGEN (N)	% 9
WATER SOLUBLE CALCIUM OXIDE	% 15

LENA CALCIO is formulated with calcium and nitrogen, essential for maintaining cell wall integrity and overall plant structure. Calcium plays a crucial role in cell division and elongation, promoting healthy and effective plant growth. This product strengthens the cell wall, enhancing the plant's defense and resistance to pathogens and stress conditions. Without adequate calcium, plants may experience slowed root and shoot development, and fruits and vegetables may suffer from bruising and cracking.

LENA CAB (Calcium + Boron+ Aminoacid) is formulated to enhance plant tissue strength and increase resistance to diseases and adverse conditions. I ts easily absorbed formulation strengthens cell walls without causing damage. LENA CAB plays a crucial role in cell division and development while protecting cells from toxins. It improves tissue firmness, prevents cracking, and extends the shelf life of crops by delaying aging.

LENA BOR 10

% 10 BOR

PACKING: 1L - 5L - 20L

CONTENTS	%W/W
WATER SOLUBLE BORON (B)	% 10

LENA BOR 10 accelerates meristem tissue development and growth, prevents structural issues in leaves and branches caused by boron deficiency, and enhances nucleic acid metabolism, carbohydrate transport, photosynthesis, and protein metabolism, while also revitalizing growth points and promoting flower and fruit formation.

PACKING: 1L - 5L - 20L

LENA COPPER

% 5 COPPER

CONTENTS	%W/W
WATER SOLUBLE COPPER (Cu)	% 5

LENA COPPER supports protein and vitamin synthesis in plants, prevents growth issues and deficiencies such as leaf shrinkage and fruit tree drying, and enhances flower and fruit development.

BLENDER contains high levels of iron, zinc, manganese and a large number of trace elements, it does not only meet the plant needs, but also the expected quality and yield in the product. Provides all trace elements to the plant which can not be taken by the plant at all periods of its development. I t contains enzymes that increase growth and chlorophyll synthesis, plant water uptake, new cell for - mation and cell membrane perme- ability, it improves pollen powders and increases fruit behavior.

PACKING: 1L - 5L - 20L

LENAGRO PH

800 g/L LIQUID SULPHUR

CONTENTS	%W/W
SULPHUR (S)	800 g/L

LENAGRO PH addresses salt and lime accumulation in soil, often caused by excessive or improper fertilizer use. It aids in reducing these accumulations and enhances nutrient uptake, particularly iron, zinc, and phosphates. Due to its high sulfur content, LENAGRO PH also has fungicidal properties that improve plant disease resistance and help treat certain root diseases. Additionally, it acts as a rooting agent, supporting healthier root development.

PACKING: 250mL - 100mL

EASY MIX

STİCK FOAM X - MIXUS ACIDIUM

EASYMIX is a blend that includes the latest technology, Stick Foam X and Mixus Acidium products. Thanks to its components, Stick Foam X provides an excellent spreading adhesive experience while also eliminating foam in fertilizer and pesticide tanks. Mixus Acidium, on the other hand, lowers the pH of the tank mixture and helps elements that have difficulty mixing with each other to blend more effectively.

PACKING: 100mL

LENA FULL SPREAD

ORGANIC SILICONE

LENA FULL SPREAD is an organic silicon product designed to improve the uniformity and effectiveness of pesticide and fertilizer applications. By reducing surface tension, it enhances the even distribution of these substances on plant surfaces. Its rain-resistant properties minimize the need for repeated spraying, lowering overall costs. Additionally, LENA FULL SPREAD leaves no residues on plants or fruits, making it safe for users, the environment, and natural ecosystems.

PACKING: 250mL - 500mL - 1L

PHIDELITY FILM

PHI DELI TY FI LM is a high-quality pH-decreasing agent that enhances the effectiveness of pesticides and fertilizers. I t ensures better distribution and adhesion on plant surfaces, preventing loss due to adverse weather conditions. Additionally, PHI DELI TY FI LM helps to prevent the deterioration of chemicals caused by the high pH of alkaline water by lowering the pH, thereby maintaining the efficacy of the applied products.

PACKING: 250mL - 500mL - 1Kg

LENA FILM

LENA FI LM is a high-quality adhesive spreader that ensures even distribution of fertilizers, pesticides, herbicides, insecticides, and fungicides, enhancing their effectiveness and penetration while leaving no residue on the crop. I t also aids in cleaning application machinery.

PACKING: 100mL

LENA TOMAT & PATTOM

4CPA

TOMAT & PATTOM can be used to prevent flower and fruit drop, inhibit rooting in beans, promote fruit setting, and induce seedless fruit. Additionally, it accelerates ripening and increases production yields. It is particularly effective in enhancing crop yield for tomatoes in both open fields and greenhouses.

PACKING: 50mL - 100mL - 0,5L - 1L - 5L

LENA BETA

BNOA

To ensure sufficient growth and prevent blossom loss in tomatoes, eggplants, peppers, cucumbers, squash, beans, strawberries, watermelons, and other plants, spray a 1 mL solution of LENA BETA per liter of water over the blossoms. For tomato seedlings, this treatment promotes adequate growth and early blossom formation.

PACKING: 4L

LENA CHEM

LENA-CHEM maintains the golden yellow color of dried grapes, ensures easy preparation of the dipping solution, and keeps the mixture homogeneous for an extended period. It leaves no residue, enhancing the quality of dried grapes.

PACKING: 250g - 500g - 1Kg

LENA MASTERWAX

LENA MASTERWAX can be applied directly to the vaccine area without heating. LENA MASTERWAX cannot be cracked because of the frost, cold or rain LENA MASTERWAX is a vaccine paste that does not washed, it is useful for easier and quick closing of vaccine wounds. LENA MASTERWAX can be used safely in all kinds of trees, seedlings, hangings and other grapes.

PACKING: 1L - 5L - 10L - 20L

CONTENTS	%W/W
WATER SOLUBLE MANGANESE (Mn)	%3,5
WATER SOLUBLE ZINC (Zn)	%4

Nutrisol is a specialized manganese-zinc phosphite fertilizer designed to support plant growth and disease resistance. Manganese boosts photosynthesis and enzyme activity, promoting healthier and stronger plants. Zinc enhances root development and improves nutrient uptake for better crop performance. The phosphite form stimulates the plant's natural defense mechanisms, protecting against fungal diseases and ensuring higher yields.
